

Name: _____

1) List the shapes in order from the fewest number of vertices to the most number of vertices.

2) List the shapes in order from the most number of sides to the fewest number of sides.

3) I have 8 vertices, and I am shaped like a stop sign. What shape am I?

4) I have 3 sides and 3 vertices, and I can be drawn many different ways. What shape am I?

What are some different ways you can draw me?

5) I am a quadrilateral (4-sided shape), and all my sides are the same length. What am I?

6) I am a quadrilateral with vertices that are all 90-degree angles. What am I?
